

For further information contact Grietje Krabbe: grietje.krabbe@mdc-berlin.de

Every Wednesday, from 09:30 to 10:30 AM
BIMSB, Large Conference Room
Hannoversche Str. 28, 10115 Berlin

Systems Biology Lectures

Organoids & Self Organization

Date	Speaker
08-05-19	Prisca Liberali FMI, Basel Self-organization and symmetry breaking in intestinal organoids
15-05-19	Anna Kicheva IST Austria Coordination of progenitor specification and growth in the developing spinal cord
29-05-19	Moritz Kreysing MPI CBG, Dresden Light induced cytoplasmic flows to study cells and developing embryos
05-06-19	Bon-Kyoung Koo IMBA, Vienna CRISPR/Cas-assisted genetics in intestinal organoids
19-06-19	Christopher Esk (Knoblich lab) IMBA, Vienna An ultrasensitive CRISPR-based screening platform in human cerebral organoids to elucidate causality in microcephaly
26-06-19	Marisa Karow LMU, Munich Recapitulating human neurogenesis by cerebral organoids: From direct reprogramming to disease modeling
03-07-19	Francesca Spagnoli King's College, London Engineering pancreatic tissue: cells in time and space
10-07-19	Suzanne Eaton MPI-CBG, Dresden TBA
